

Our Team

DR BOJAN BOSKOVIC is the Founder, Managing Director and Principal Consultant of the company, working on various innovation management, exploitation and dissemination activities related to EC H2020 and Innovate UK projects. He has more than 20 years of hands-on experience with carbon nanomaterials and composites from industry and academia in the UK and Europe.

DR JELENA ALEKSIC is a Head of Innovation Strategy. She has extensive project management, R&D and teaching experience. At the CNT Ltd she has been working for more than seven years on business development, preparation of customised patent landscaping and market research reports and EC H2020 project innovation management, business planning and proposal preparation.

DR ANA BANKOVIC CASSIDY is a is an Innovation Consultant. She joined CNT team in February 2021. Ana graduated from the Faculty of Physics, University of Belgrade Serbia, winning the award for the best BSc (Honors) Thesis of the year 2007. The main aim of her PhD study and further research was to identify and explain specific kinetic phenomena that occur in positron transport in electric and magnetic field due to non-conservative nature of positronium formation.

MÓNICA SPREADBURY is a bilingual (Spanish and English) Senior Administrative Officer at the CNT Ltd responsible for administrative and project dissemination activities, with large experience gained within a variety of organisations in the private and public sector, both internationally and in the UK.

Who we are

Cambridge Nanomaterials Technology Ltd (CNT Ltd) is an innovation management and nanotechnology consulting company based in Cambridge, UK.

The CNT Ltd helps companies, academic and government institutions to develop world-class innovative solutions for nanomaterials related R&D and IPR strategy, partnership, products, technologies, funding and markets. CNT Ltd is specialised in carbon nanomaterials R&D consulting and collaborative R&D project management, including exploitation and dissemination management, consortium and supply chain building. CNT has done a number of patent landscaping and market research analysis studies regarding production and use of various nanomaterials helping to link inventors and technology developers with end-users and investors.

The CNT Ltd is a leader of two private consortiums: Nano-Carbon Enhanced Materials (NCEM) and the Advanced Materials for Additive Manufacturing (AMAM) with members coming from leading multinational companies and research institutions. Through both private consortiums NCEM and AMAM, as well as private and public contracts, CNT Ltd has established strong relations to the aerospace, automotive, construction, electronics, materials development, biomedical and chemical industry.

In March 2019 CNT Ltd opened a sister company CNT Innovation based in Brussels, Belgium, with the aim to support and complement their work, especially in European related activities.

Our product & service

The summary of our services is:

- Consulting and an expert advice related to carbon nanomaterials (graphene, carbon nanotubes, carbon nanofibres, etc.) and other nanomaterials regarding their production, composites, applications, key players, funding and market.
- Management in collaborative R&D projects, such as EU Horizon 2020 projects: n-TRACK (www.n-track.eu); Oyster (www.oyster-project.eu); M3DLoC (www.m3dloc.eu); Genesis (www.genesis-h2020.eu); Repair3D (www.repair3d.eu); Carbo4Power (www.carbo4power.eu), APOLO (<https://project-apollo.eu>), DOME (<https://dome40.eu>), TRIAnkle (<https://triankle.eu>); and, nanoMECommons (www.nanomecommons.eu) as well as Innovate UK projects: UltraMAT (www.ultrammat.co.uk) and GRAPHOSITE (www.graphosite.co.uk). Innovation management and technology transfer support related to R&D of novel nanomaterials and composites.
- Advice and support related to development of Intellectual Property (IP) Strategy – patent landscaping reports, due diligence, invention and protection.
- Market Research and Strategy - market research reports, consulting and advice about innovation, new product strategy and development, proof-of-concept, market and funding.
